Confirmation Class – 2020 and 2021

One of the themes that we have been frequently revisiting is “Moving Forward Together.”

We have been journeying through a time in our lives that none of us could have predicted. The pandemic left us scrambling to find ways to remain connected to each other and to be able to continue to worship together as a church. The pandemic forced us to stretch our wings and embrace new technology and demanded that we find new ways to meet with each other to conduct business. Just yesterday, we celebrated with 13 young people who were affirming their faith, we celebrated an additional confirmation on Saturday night, and we are still planning another confirmation in the coming weeks. We needed to find a way to maintain our building and to keep our church moving forward during a time when many faithful volunteers did not feel comfortable coming to the church building. We have needed to continue maintaining the property; to address a plumbing challenge and some restorations; and now, we are working together to find a way to finance a major project while needing your financial support to pay the expenses of our ongoing ministry.

One of the things that I hear over and over again is that people are tired and are feeling stretched. We are tired of needing to adjust our lives to accommodate something that we cannot even see. We are tired of wearing masks and remaining socially distant from people we love. The political atmosphere in America has strained relationships and has even ended relationships within families. And, even in the church, we are tired because of the increasing demands to provide broadcasted worship services, maintain a building, and deal with issues and challenges that are off the radar in many people’s lives.

And so, what are some things that we can do to keep “Moving Forward Together”?

1. We need to begin by realizing that we are tired; and that, when people are tired, they sometimes do things they normally would

not do. This is a time when grace and forgiveness are important. I have often used the image of people being like porcupines. We can live and move about relatively painlessly, even in times of challenge and uncertainty, when we are alone. However, when we begin to draw close to one another – especially when we are tired and overwhelmed – it is easy for us to “stick” each other and to be “stuck” by the quills of other porcupines. People who are tired sometimes say things in less-than-helpful ways. People who are tired sometimes misinterpret the words and actions of other people. We are not always grace-filled when we are edgy; and, because of that, our relationships with other people can be dramatically changed. That is why grace and forgiveness are both necessary and important right now. Luther taught that the 8th Commandment is all about learning how to interpret the actions of other people in the best possible way. That is something that we can all do to keep “Moving Forward Together.”

2. We need to realize that people who are tired need other people to come alongside of them and to help them to carry the load. We can rejoice together as we return to in-person worship services each weekend and as we broadcast our service to even more people. However, we also need to remember that we can only keep “Moving Forward Together” when we are working well as a team. We continue to need people who are joining us for in-person worship to do tasks like unlocking the doors, turning lights on, lighting candles, and turning our new ventilation system on. We continue to search for people who can help us to operate our new camera equipment, so that broadcasting our worship services can be done in a sustainable way. We need you to continue to do simple things like wear a mask during worship services without forcing someone else to ask you to do it. We are actively trying to do things like restart our children’s Sunday School, organize our Vacation

Bible School, develop a Capital Campaign to help fund repairing the drainpipe under our parking lot, and to maintain our building and property. One of the most important things you can do, right now, is come alongside the people who are working so hard to keep our church moving toward a bright future. You can be a real blessing to our church by simply offering to give us a hand when you see something that needs to be done.

3. We need to realize that people who are tired need people to encourage them and spur them on, not simply criticize what they are trying to do. We are all on the same team and we are “Moving Forward Together.” A little note or a short telephone call can brighten someone’s day. People who are trying their best to do something that is good need other people to point out what is working and going well. I have been deeply touched by the number of encouraging messages that I have received as we have journeyed through this pandemic. Can we work together to expand that circle of appreciation? Can we work together to ensure that people who work so hard, behind the scenes, know that their time and efforts are appreciated? Part of “Moving Forward Together” always includes lifting up what is working well, taking time to encourage one another, and spurring each other on with kind thoughts and caring words of encouragement – even when things are not perfect.

We truly are “Moving Forward Together” as a congregation and as a team. And, if we can keep these simple truths in mind as we move forward, we will find ways to lift up and encourage each other, bear with one another in challenging times, and grow in faith and in our understanding of each other in these times when we are all tired, a bit edgy and wanting things to be different than what they can be right now.

What is B.1.1.7

Our Council is continuing to ask you to wear a mask when you are in the church building with anyone but a family member. We will, also, be expecting everyone to wear a mask as we begin in-person worship on April 25th.

You have, probably, been hearing that the coronavirus is continuing to mutate even as more and more people are being vaccinated. We are in a race against time. The danger, of course, is that every time the virus mutates (becoming something like the .1.1.7 variant), the virus can become something that gets around immunity created by the vaccine.

By working together and by wearing a mask, at the church and during the week, we can all help to ensure that the battle against the coronavirus will be successful and that we will all be able to return to more normal living, soon.

Caring Hearts & Hands

Volunteers will be meeting in the downstairs fellowship hall on Wednesday, June 16th at 9:15am to discuss future plans.

If you have been wanting to get involved and help, give back to our community, this special opportunity is perfect for you! Or maybe you are wondering how you could receive one of these lunches?

All you have to do is call Romaine Miller at 412-996-4915; to sign up or get your name on our Caring List.

We kindly ask that you continue to pray for our CLC members, family, and friends of members who are included in our weekly bulletin prayer list. Thank you.
